Castel Commercial Property Fund (the "Sub-Fund") Class A USD (LU0941594581) a sub-fund of KMG SICAV SIF S.A. (the "Fund")

This Fund is managed by KMG Capital Markets Ltd

Objectives and Investment Policy

Investment Objective:

The Castel Commercial Property Fund seeks to achieve capital preservation and to increase the value of the Castel Commercial Property Fund through the purchasing of quality properties and the securing of long-term leases with inbuilt index linking of the rents. The combination will provide both income and active participation in the long-term trend of the UK property market.

Investment Policy: Real Estate

Geographical allocation: United Kingdom

Factors driving performance: As with all commercial property assets, the performance will be driven by both a rising net rental yield, and increases of the assets' capital values; these are affected by the sector's specific dynamics, the overall situation of the UK economy, inward investment by foreign investors as well as the asset management - both at micro and strategic levels - by the Investment Manager.

The choice of assets is guided by growth.

Risk Disclaimer

The risk and reward indicator illustrates where the Sub-Fund is positioned in terms of its possible risks relative to its potential rewards. The higher the Sub-Fund's position on this scale, the greater the possible reward, but also the greater risk of losing money. This risk indicator is calculated using historical data of the prices of the fund (or its benchmark in case of a new sub-fund) which may not be a reliable indicator of the future risk profile of the Class. The lowest risk category cannot be regarded as being risk-free. The value of shares can rise and fall and accordingly, an investor may not get back the full amount invested.
