Risk and Reward Profile

Risk Disclaimer

The risk and reward indicator illustrates where the Sub-Fund is positioned in terms of its possible risks relative to its potential rewards. The higher the Sub-Fund's position on this scale, the greater the possible reward, but also the greater risk of losing money. This risk indicator is calculated using historical data of the prices of the fund (or its benchmark in case of a new sub-fund) which may not be a reliable indicator of the future risk profile of the Class. The lowest risk category cannot be regarded as being risk-free. The value of shares can rise and fall and accordingly, an investor may not get back the full amount invested.

Why is this Sub-Fund in this category?

Based on preliminary calculations, the level of the risk-reward profile is 3='medium-low'

Factors driving performance:

Returns will be linked to the performance of the underlying assets thereby impacted by factors such as interest rates, equity and credit markets' performance, commodity prices and foreign exchange markets. In addition, separate factors may affect returns of individual Property funds e.g. political, tax, rental yields and local supply and demand.

The choice of assets is guided by growth.

Income

Incomes of this Share Class are capitalised.

Share Class Currency

The reference currency of the Class of Share is USD.

Dealing frequency

Shares are redeemed at their Net Asset Value per Share on any Valuation Day less any applicable redemption fees.

The use of hedging / arbitrage / leverage techniques may determine the fund's performance as follows: Hedging: derivatives may be used to hedge the currency risk of non-USD assets.

Recommendation: this Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Benchmark: The Sub-Fund does not refer to a benchmark.
